

## Web Development Intern (Paid)

Open Organize, Washington, DC

**Application Deadline:** Open

Open Organize is a technology consulting firm that partners with social sector organizations to increase their effectiveness and expand the scope of their goals. We create custom web applications and internal databases, and implement management solutions that leverage the full power of information technology.

Open Organize seeks an Intern to join the web development team working on two ambitious, Web 2.0-enabled progressive websites focused on combating poverty and accelerating solutions to global climate change. We seek candidates who have strong technology skills, a passion for building web applications that create positive social and environmental change and will work well with a small team of dedicated activists and technologists.

For reference, please see [www.1well.org](http://www.1well.org), and [www.climatelab.org](http://www.climatelab.org).

Interns may work full- or part-time, but must make a minimum three-month commitment. This internship is appropriate for undergraduates, graduate students, and individuals looking to start a career working with technology in an advocacy environment.

### Responsibilities

- Work directly with clients and stakeholders to create website development plans that integrate a variety of database, web service, AJAX, and web design technologies
- Build out websites in a collaborative programming environment
- Support and maintain client websites

### Relevant Skills (you are not required to possess all these skills)

- PHP
- Web Design, including CSS, JavaScript, and AJAX frameworks
- SQL
- Java
- Ability to work independently, under pressure, and on deadline
- Experience working for progressive non-profits or political campaigns

**Compensation:** Interns will receive a modest stipend and transportation subsidy.

### To Apply:

Please send a resume and cover letter, optionally including salary requirements to [jobs@openorganize.com](mailto:jobs@openorganize.com) or
